VISVA-BHARATI

Visva-Bharati was founded by first Asian Nobel laureate poet Gurudev Rabindranath Tagore in 1901. In 1951, Visva-Bharati was declared as a Central University by an Act of Parliament. Gurudev in his own words described it as the place “where we can work together in a common pursuit of truth, share together our common heritage, and realize that artists in all parts of the world have created forms of beauty, scientists discovered secrets of the universe, philosophers solved the problem of existence, saints made the truth of the spiritual world organic in their own lives, not merely for some particular race to which they belonged but for all mankind”.

DEPARTMENT OF CHEMISTRY

The Chemistry Department, started in 1962 as an undergraduate Department but within a short span of six years, it became a postgraduate Department. Presently, it is a full-fledged Department with postgraduates, undergraduate students and Research Scholars. Faculty members of this Department actively participate in teaching and research with a good number of national and international projects funded by DST, CSIR, UGC, BNRS, DBT, ISRO, Russian Chemical Society etc. A good number of students qualify every year national level test like NET, GATE, Joint admission test of IIT, IISc, JNCASR and international level test like DAAD, GRE, TOEFEL etc. The Department is recognized as a DST-FIST and UGC-SAP funded department.

LOCATION OF THE UNIVERSITY

The University is located at Santiniketan in the District of Birbhum about 160 Km from Kolkata. It is connected with Kolkata by Rail and road. The nearest Railway Station is Bolpur-Santiniketan, which is 3 km from the University Campus. It is also well connected to Durgapur township by road (60 km).
